# Friday Letter

Dear Mom and Dad,

We are doing geometry in math.  
And we are writing the perimeter around  
shapes and the area.

In our class we built a model of  
a leg and the muscles, bones, and tendons.  
We also built a paper skeleton and  
put it together by cutting out pieces  
of paper and then put facemaps in  
the holes in the paper.

We went to the water to go read them  
are swimming essay. When we walk  
there it is really fun. Last time  
Subaby and I were playing this game where  
we went to the back of the line and  
then we ran up and tried to tag each other.

Sincerely  
Eddan
