

Friday ¹⁰⁻²⁸⁻¹¹ letter

Dear mom and dad.

When my class went to wild river state park, we learned that they have to pick the seeds off the plants. They have to burn the prairie grass then plant the seeds. They have to do that again and again. Aze plant was called Thimbleweed when Felicity blew the whistle. we all came back to the bus. We had like 10,000 seeds that ^{were} worth 1000.00 DOLLARS. JUST 11 POUNDS.

We walked to Walker Schick Center.

When we got there we rested then separated into different groups and went

To different floors.
