Dear ~~Mom~~ and Dad

The other day our class went on a field trip, we went to the physics force. A man named Fred, dropped from a small tower. He tried to catch a ball but he missed. He had a soft landing.

We also saw a play about Amelia Earhart. It was an actress telling all about Amelia. She was a very good actress.

We've also been working on states. I'm doing Texas. We got to put the information about your state into power point.

We're also doing swimming essays. First we would write swimming at the Ymca and write stuff about what you do there. We called this a web. Then we would write three or four paragraphs

Love, A. Sadava
