

3-7-14

Dear mom and dad,

This week we had these people come over, Dave, and Lindsay, and they work for Junior Achievement. It was really boring but I got positi<sup>ve</sup> some of the good activities. We at least got to make a restaurant. They also work for some weird bank but it wasn't important. It was called (the bank) Thrivent Financial.

We also did gym and we did SOCCER! It was really fun but the ball was foam and too light. But I could use it... Barely. Now that my team won 3 to 0 we are moving onto hockey. I think I also hope we do too.

This week we also did Mr. Bones. It is about the human body. It is very interesting and fun. I learned that the Lumbar vertebrae is in the back.

→ Turn over!

We are working on this EPIE  
thing called, The Iditarod and my  
guy was 1st yesterday out of  
66 people! His name is Jim Lanier. But  
now Jim's in 14th because he had  
his 24 hour rest time so he doesn't  
fall off his sled from lack of rest and  
get hurt. I checked what place  
he was in 3 times at home because  
I was getting a little competitive.  
I hope he wins! In the 1900s Diphtheria  
was going around and killing people in  
Nome but they had a relay race of dog  
sledding but the race was for life. One  
of the racers name was Charlie  
Olson. They got the medicine and everyone  
was cured!

Sincerely, Rhonda Olson  
or, your daughter
