

5-11-5

Dear house, (yes I do mean  
the house itself.)

This is what has been happening  
at school:

# Media

Okay, in media we've been making  
power points on the human body. My subject  
is the immune system. We have to do research  
first. Here are some of the sources we  
have to use: Encyclopaedia britannica online  
School edition, a book, kids info bits,  
another encyclopaedia.

# math

In math the 4th graders have  
been doing multiplication  
and long division. The long ~~math~~  
division has mostly been  
story problems. I think ~~that~~  
they are both very hard.

# Camping

Camping is coming recess and all the way soon. We've been having "camping lessons" Here are the things we've done: Camp in hopes and dreams, cans and carts, and well, will be doing camp songs. Hopes and dreams are what we want to do, cans and carts are what we can and can't do. Camp songs are singing songs. I think we will also be able to plan meals etc.

bye  
house  
bye
