

10-28-11

Dear Mom!

one | Alt Wild River We took seeds
and put them in a pocket like
our cubby. We worked together.
Then we found a hole, like a
beaver house. Then we showed
Felicity and she said, "great!"

Then we came back.

two | We did Pumpkin Math

We cut the pumpkin. Then we scooped
the seeds. Then we got ten cups
and then we counted by ten.
Then we got 660 seeds.

three | We are learning about Spider in
National Geographic. I learned
body shape legs eyes and
wings. The spiders have 2 parts
8 legs 8 eyes and zero
wings.
