

Friday Letter

Dear Jill and well, mom I guess: The reason I am writing

In Cousine is because I need to. In school we are doing some camping lessons, it is pretty much just getting us ready for camping, like what to bring and stuff like that.

We are in media now. We are working on power point slide shows. The topic is the human body! I am doing the tongue. Did you know the tongue is connected to your brain!

In our readers workshop we doing something called "If I were the Author," what it is is you make up a chapter that fits in to your book that you are reading.

Yours truly

Kammem
